

Informed and Supported Workers Program

Training Opportunities

foodandfibregippsland.com.au/isw

In collaboration with our external partners, we're able to offer training opportunities across Gippsland as part of the ISW Program. Should you wish to organise training in any of the following areas for your workers or staff, please don't hesitate to contact us for assistance.

Safe Driver Training

Valuable for those new to driving in Australia, these sessions will help seasonal workers be safer on our roads.

English Lessons

With the assistance of AMES Australia, these sessions can help your workers improve their basic English skills.

Sexual Health Education

Topics covered in these sessions include sexual health, personal hygiene and healthy behaviours in general.

Alcohol, Drink-Driving and Australian Road Rules

These sessions help to raise awareness for adapting to driving in Australia.

Cultural Diversity Education

Understanding cultural and linguistic diversity (CaLD) is important when employing a seasonal workforce. We're pleased to offer sessions that are tailored towards culture, diversity and multiculturalism in the workplace. Knowledge gained in these sessions will help to foster a positive and inclusive working environment for your team.
